Hi there,

It's nice to meet you!

Women Techmakers
Berlin

{CODEMOTION}

Welcome

Research on the barriers that women face in undergraduate computing has highlighted factors, such as: Well-meaning people who unwittingly create stereotype threat by reminding students that:

"women can do computing as well as men".

- MIT Press

Women Techmakers

is Google's brand and global program for women in tech.

Women Techmakers (WTM) provides
visibility, community, and resources
for women in technology to drive innovation and
participation in the field.
