GeoIT.org Members:

Overview and Outlook of **GeoIT Platforms and Components for developers**

Roland Wagner

President of the Association for Geoinformatics, GeoIT and Navigation e.V.

president@geoit.org

Approach and overview

{cop@motion}

- 1. IT development cycles and main methods
- 2. Abstract and Technology Media Formats
- 3. IT and GeoIT Platforms and disruption of separated classic geoinformatics (governmental driven) by mainstream IT

4. GeolT.org Community

1. IT Platforms, ages and methods

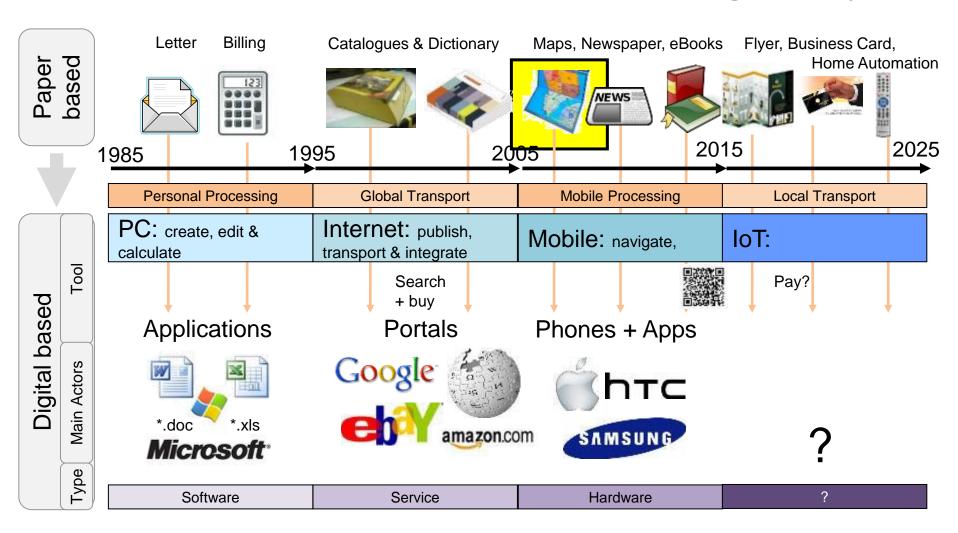

1 <u>985</u>	19	95 20	005	2015	2025
Po	Personal Processing	Global Transport	Mobile Processing	Local Transport	
				IoT: ?	
			Mobile: navigate,	2.0	
		Internet: publish, transport & integrate	2.0 or Web 2.0	3.0 or Internet III	
PC:	: create, edit & ulate	2.0	3.0	4.0	

Software Service	Hardware ?
------------------	------------

2. Conversation of Media Formats

- Human basic needs do not change or expand very much
 - More change in tools
 - New technologies replace older technologies, e.g.
 - Paper technologies
 - Digital technologies
- Example:
 - Paper Maps
 - Digital Maps

2.1 Abstract Media Formats: e.g. Map

3. Umbrella Terms and "Where"

- Computer science (informatics) vs.
 Information technology (IT)
- Geoinformatics vs. GeoIT

- Geo-"": "Where" question as the main focus with positions and functions
- GIS is not an umbrella term for multiple ages, but a sub umbrella term for the PC Age with commercial main instance ArcGIS by ESRI and open source main instance QGIS

3.1 IT vs. GeoIT

{cop@motion}

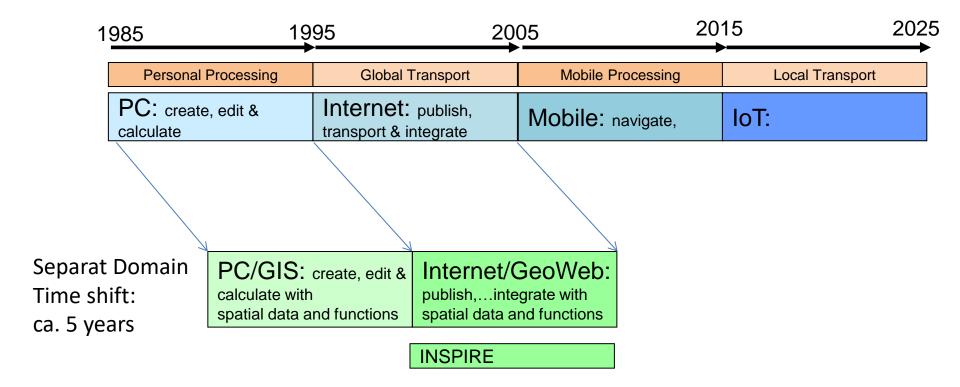

- The spatial functions require some (later)
 main stream age features and therefore a time
 shift of about 5 years can be detected, e.g.
- PC / GIS: Graphical Display
- Internet / GeoWeb: More bandwidth for maps (images)
- ...until ca. 2005

Mobile: GeoAPI already in Android API level 1

3.2 IT/GeoIT – GeoWeb Infrastructure

{copemotion}

Traditional community view and expectation

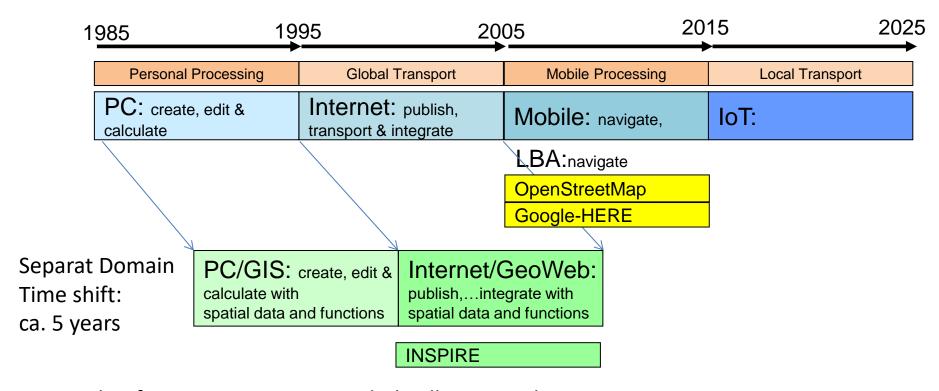

Geoweb Infrastructure: term to include all sector infractures, e.g. google maps, INSPIRE,.

3.3 Disruption in 2005/2008

{copemotion}

New GeoIT Infrastructures in Mainstream

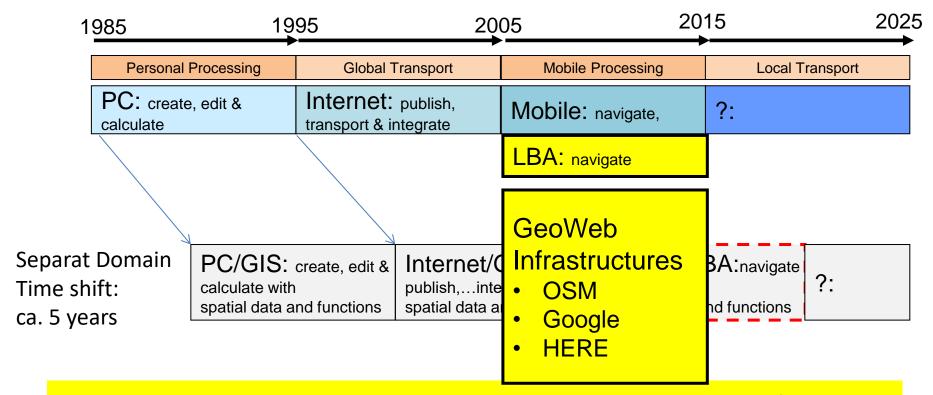

Geoweb Infrastructure: term to include all sector solutions, e.g. google maps, here maps, OpenStreetMap and EU INSPIRE

3.4 Industrialization of "Where"

{copemotion}

Serve large number of customers/users, e.g. 500 Million

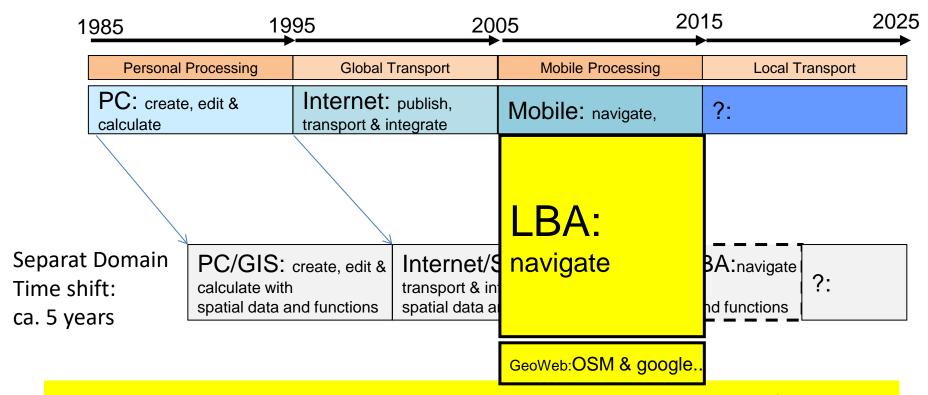

Full integration and industrialization to IT/GeoIT

3.5 Mobile Navigation

{copemotion}

Android API 1 with android.location API and com.google.{maps}

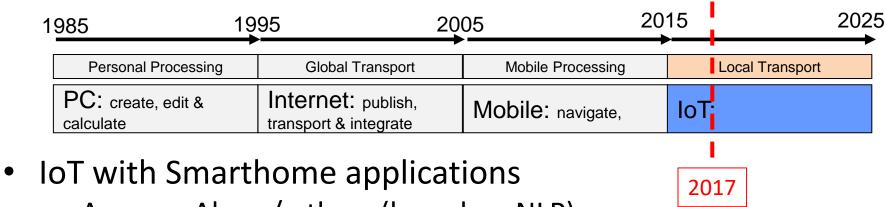

Full integration and industrialization to IT/GeoIT

3.6 IoT Age: Outlook

{cop@motion}

New trends are difficult to detect beforehand

- Amazon Alexa / others (based on NLP)
- Philips Hue / others (based on zigbee)
- GeoloT might add the "where"
 - E.g. (Hue) lamps/printer/beamer/TV selection by "physical pointing to" with indoor position and indoor data model

4. GeoIT Community

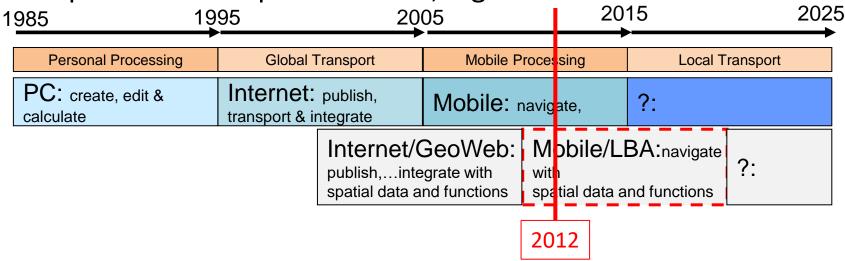

- Knowledge Exchange and Community
- Events
 - GeoIT Wherecamp Conference, next Nov. 30th
 - GeoMonday, evening events, 4 times a year
 - GISCO workshop, next Dec. 1st
 - support of new ideas, e.g. Tango
- Legal association (e.V.) with 50 personal and 13 corporate members

4.1 GeoIT Community / Association

{copemotion}

- O'Reilly Where 2.0 Conferences 2011 and 2012
- Multiple Wherecamps worldwide, e.g. San Francisco

Import of this motion into Europe and also into Berlin

- WherecampEU in 2011 in Berlin
- Wherecamp Berlin in 2012, 2013...2017, Philipp Kandal, Jan Nowak and Roland Wagner

4.2 GeoMonday & Wherecamp Impressions

{copemotion}

Soon 16th GeoIT GeoMonday Edition Soon 7th GeoIT Wherecamp Edition

4.3 EU Galileo Hackathon

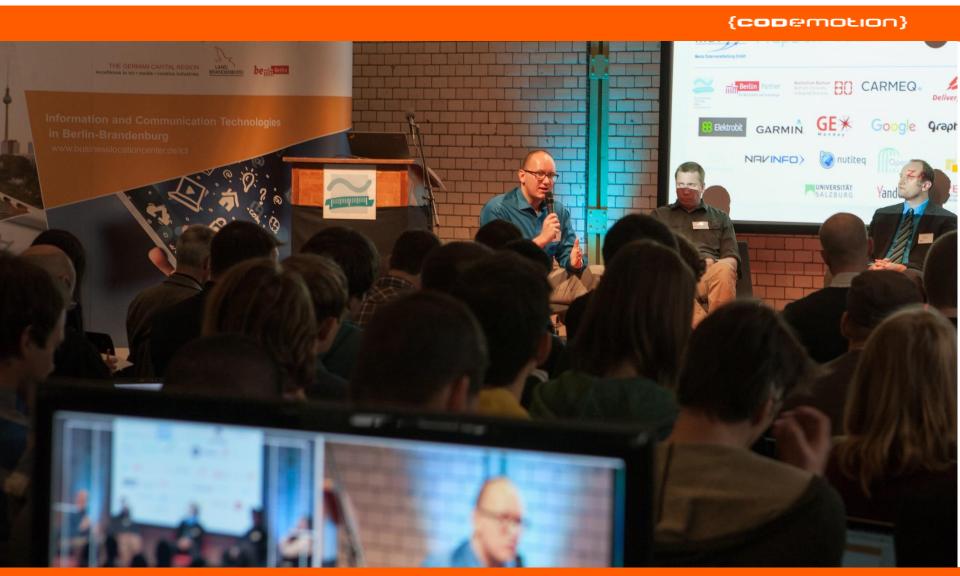

4.4 Wherecamp with Prof. Thomas Blaschke

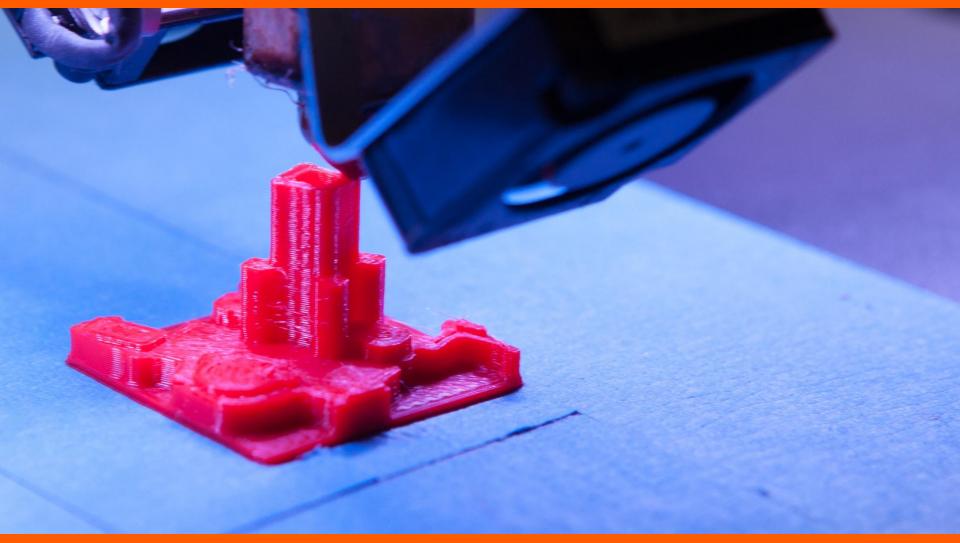

4.5 Wearable Hackathon

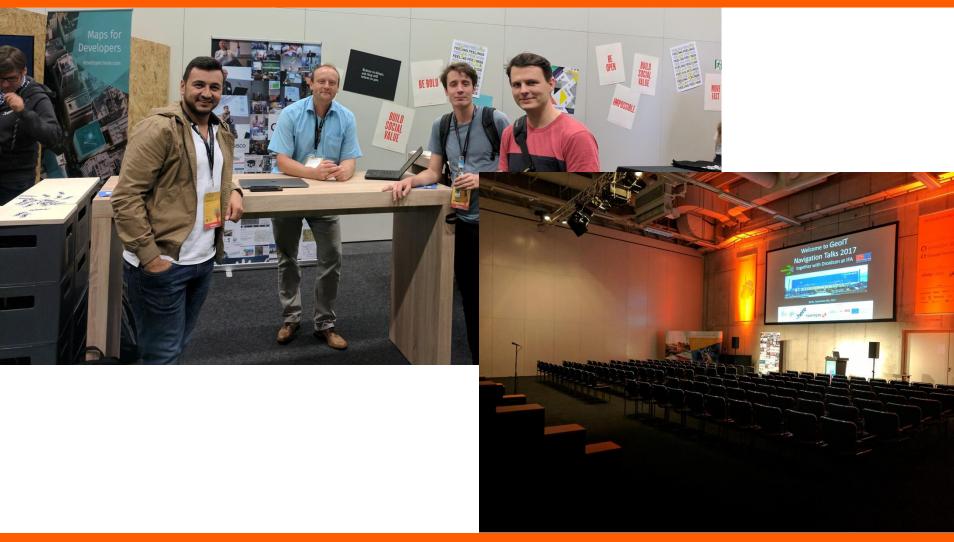

4.6 Philipp Kandal (skobber) and Steve Coast (OSM)

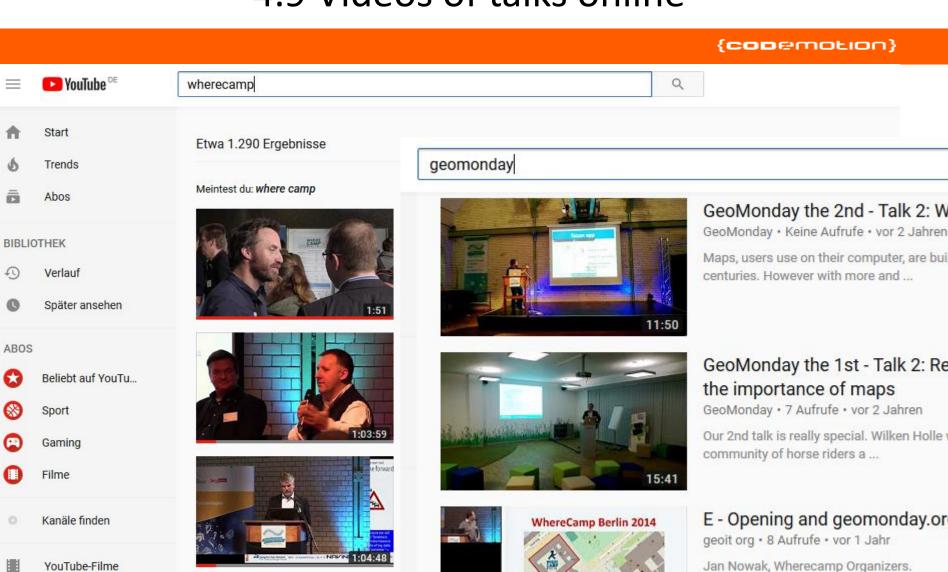

4.7. Supported OSMBuildings.org => 3D Print Bridge

4.8 Droidcon 2017 booth and Navigation Talks

4.9 Videos of talks online

YouTube-Filme

4.10 Attend, Join us and Contact

- Attend the next events
- Join us as the association for 35 EUR / year as a personal member
- Association for Geoinformatics, GeoIT and Navigation e.V. (GeoIT.org)
 - Web: <u>www.geoit.org</u>
 - Twitter: @GeoltOrg
 - Personal....
